The following action is in response to the amendment received July 12, 2004.

Allowable Subject Matter

Claims 2-10, 12-19, and 21 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or renders obvious a clutch mechanism as defined in claims 2 and 12 wherein a portion of the shaft includes a helix and the pressure plate includes a helical configuration that mates with the helix of the shaft. The art also fails to disclose or teach the method of impeding rotation of a shaft under a back drive condition of a motor wherein the step of permitting the pressure plate to move includes mounting the pressure plate with respect to the shaft using a helix on the shaft and a mating configuration on the pressure plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

The replacement sheet of drawing, filed July 12 and showing corrected Fig. 6, overcomes the drawing objection set forth in the previous Office action. The objection to the drawing is withdrawn.
